

KNIGHTS OF COLUMBUS®

Due to a technical issue, the email we sent yesterday contained incorrect links. We urge you to click the updated link below and contact your senator today.

Dear Brother Knight,

I urge you to contact your U.S. Senators today, and ask them to support the Born Alive Abortion Survivors Protection Act.

This common sense legislation requires that medical professionals exercise the same degree of care when a failed abortion results in a live birth as they would for a regular delivery.

Our recent Knights of Columbus/Marist Poll found that 56% of Americans believe that an unborn child is a unique life and 75% would limit abortion to, at most, the first three months of pregnancy. **However, I think we can all agree that a newborn child has a right to the best care possible, no matter what the circumstances of their birth.**

Please visit our [Action Alert Center](#) to email your [Senators](#) in support of this life saving legislation. If you prefer, you can also [call their offices](#) in Washington directly.

Thank you for your attention to this important matter.

Fraternally,
Carl Anderson
Supreme Knight
